

# Car Glasses Clip **Clippi**<sup>®</sup>

**Store your glasses in your car - safe, protected and always at hand!**

## **Ingeniously simple - simply ingenious!**

The brand-new Clippi is the ideal solution to store your (sun)glasses in your car. It is made of flexible plastic and can be attached to any sun visor, where it holds all kinds of glasses in place.

Your glasses are always right there and can be removed with one hand while you can keep your eyes on the road.

Thus drivers won't be distracted and don't endanger neither themselves nor other road users by looking for their glasses in bags and storage compartments.

From 50 pieces up the Clippi can be imprinted with up to 4 colours. The position of the imprint makes for an ideal visibility of your brand.

## **Standard colours**

Individual colour from 5,000 pieces for an additional charge.

**Imprint area**  
23 x 22 mm

**Packaging**  
Individually in polybag with cardboard card (customisable).
